

Aviator Windsocks

The Aviator windsock is great for airports, industrial uses, manufacturing and oil and gas facilities. When there is no wind the windsock deflates and the logo or message cannot be seen.

There are two frame options available :
 Composite frame (attached to windsock)
 Steel frame (attaches to windsock with tie strips)

Printing Process

Full colour digital print

Recommended Hardware

optional steel frame available

optional grommets

Available Sizes

8"x3', 8"x4', 12"x5', 18"x6', 24"x8'

Material
