

# Residential Telescopic Flag Pole

This telescoping flagpole features our No Drop Posi-Lock® dual-locking system. This prevents pole collapse, which occurs with competitor's telescoping flagpoles. The finish on the flagpole is anodized polished aluminum. The flag attaches with two stainless steel clips.

## Included in kit

Ground sleeve

Brass Ball top

## Optional Bases

Above ground base 31 inch solid aluminum mount that easily installs in two minutes to securely hold your flagpole.

Aluminum ground sleeve with bead ring for added stability. The In-Ground Sleeve allows the flagpole to be easily removed for temporary needs.

Brass Finial

Flag Clips

Push Buttons

Ground locking collar

Ground Sleeve

Our poles have NO Ropes, NO Chains, NO Pulleys so you do not have to worry about knots and tangles. Also, this makes our flagpoles virtually NOISE FREE
